Featured U.S. Exporters (FUSE) is a directory of U.S. products that appears in local language on Commercial Service websites worldwide (view them at www.buyusa.gov/home). In March 2003, these sites received over 151,000 visits. Designed for U.S. companies looking for business partners in a targeted region, FUSE enables clients to post a fully translated product listing complete with graphics and links on one or more CS websites. Included in the listing is a contact point at each CS office where potential business partners can call for further information.

SPECIAL INTRODUCTORY OFFER: several countries are offering a FUSE listing **FREE OF CHARGE** until September 1, 2003! To sign up, please follow these simple steps:

1. Choose the country or countries where you would like to place your FUSE listing.
